NEW CHIEF... Promotion of Samuel Solow to chief electronics engineer for General Technology Corp., has been announced. As senior engineer for the past two years in the company's electronics engineering group, Solow has headed several frequency control equipment design and development programs.

Harbor Source Of Bond Issue Information

Wendell C. Black, president of Harbor College, and Mrs. Patricia Merriam, coordinator of student activities, are acting as co-chairmen of the school bond drive for the south district of the Los Angeles City School System.

They have established a speakers bureau and a bond information center at Harbor College to serve the needs of the district. "It is our intention," said Black, "to see that any individual or group can obtain full information about this important issue."

Teachers and officials from Harbor area schools are available to speak before civic groups and clubs. A request for a speaker can be made by phoning Harbor College at TE 4-8581. Information concerning the bonds can be obtained by phoning the same number.

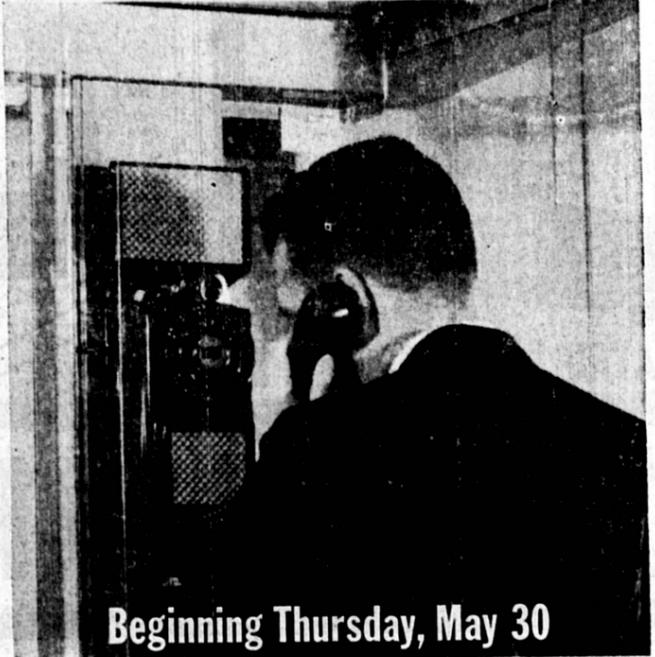

The school bonds, listed as Proposition A and B on the May 28 ballot, provide for bonds totalling \$127,500,000 in the unified district and \$10,000,000 in the junior college district. They would build 1,537 classrooms, purchase land for new sites, expand overcrowded sites, and permit replacement or structural strengthening of 104 other buildings.

Spanish Course Set for Summer

A college level Spanish course has been scheduled for the first time in the summer session at Los Angeles Harbor College.

taught by Julian Enguidanos, will make use of the facilities of the language laboratory at Harbor College and will include one hour of Spanish conversation each day.

CARE has been asked to equip adult training programs in British Honduras. Basic tools for mechanics and other artisans can be sent in \$20 trade kits subscribed through CARE, 215 W. Fifth St., Los Angeles 13, Calif.

Beginning Thursday, May 30

DIAL DIRECT from PUBLIC TELEPHONES

having numbers which start with 37 (or FR)

New modern equipment has been installed in these Public Telephones which makes it possible to dial directly to all other telephones in the Los Angeles Extended Area without calling the Operator. This service will be in effect on and after May 30.

New Instruction Cards with complete dialing information are posted on all these Public Telephones.

ANNOUNCING A NEW WAY TO COOK PROGRAMMED COOKING

cooks any roast automatically—then keeps it serving-hot up to 4 more hours! Yours only on new Gas ranges.

2:30 Pop your roast in the oven. Then simply set a dial. Roast starts cooking immediately, automatically! You're free to turn your back on the kitchen.

6:00 Before roast is completely done, oven gradually reduces to 170°—the scientifically-measured heat that keeps food hot without further cooking.

8:00 Or even 9:00, your roast waits for you... perfectly cooked, still serving-hot! See Programmed Cooking demonstrated where Gas ranges are sold!
